## MINING AND OIL NEWS.

## CAMP CITY DRILLS ARE WORKING IN OIL WELL

Operators Are Down 657 Feet—Numerous Oil Veins Tapped.

Shamrock, N. M., Aug. 4.—The contractors drilling the well are keeping everything pertaining to the well a secret. They will give out only information—not even the depth; but a tab has been kept by outsiders who are watching the operations and are as well informed possibly as the contractors themselves.  
Drilling was started July 16 and the operators went down 544 feet, cased the well, and then they shut down to wait for repairing parts for the pump, which were ordered from Cincinnati. The parts arrived July 20, and they commenced drilling August 1. They are now down 657 feet.  
At 470 feet oil was encountered in small quantities, also gas and continued down to 544 feet, through 74 feet of oil bearing strata, a soft, white sandstone was found, with a blue shale above it. When they penetrated this there was a little oil and quite a gas pressure. At 558 feet they went through six feet of shale and one foot of oil sand and there was some oil and gas.  
Between these strata there is the toughest kind of gumbo, the drill going down only about a foot per hour.  
The conditions in this well are much better than those in the old well. The drillers are also putting down casing and can tell the different oil strata as they come to them, as the strata above are cased off.

**Look for Gusher.**  
J. A. Brent, who gave the contract to the Mayo and Sons to put down the well, expects a gusher to be brought in at between 1200 to 1400 feet.

Several parties are in the field taking up, staking and recording claims. Every claim staked out by El Paso people has run out, with one exception, but all have been taken up again and the law complied with. The supposition is that the large oil companies are back of these parties. The recorder's office is swamped with claims to be recorded, having a stack of several hundred.  
Everything is quiet, but every one is preparing for the rush that will come when the well is finished. The small quantities of oil encountered consist of a black streak about two inches wide by three or four feet long that would come from the well; sometimes three or four of these would follow each other; and when the thick, muddy water that is being pumped in to wash the well is taken into consideration, there must be quite a quantity of oil and gas to make such a showing.

**Taking Up Claims.**  
Brent and the contractors have requested everyone here not to give out anything for publication until they had something definite to report. The fact has been demonstrated that the oil is here. They believe it strongly enough to gobble up every claim they can find, and are not sparing expenses.

## IMPORTANT SALE OF INDE PROPERTY

Famous Patillo Mine Reported Purchased by Americans.

At Inde, Durango, south of Parral, a big deal is reported to have been closed last week in which Messrs. Marlow sold the famous Patillo mine to an American company, which has had five engineers on the ground the past five months examining the property. The sale price is understood to have been \$150,000. The Patillo is considered one of the big mines of that district with large bodies of good ore. The purchasers will erect a mill to treat the ores in the near future.

**The La Roca Smelter.**  
A new company has also been organized to operate the La Roca smelter of the Inde Reduction company, which has been idle some time, and work will be resumed in August.

## GEO. FITZGERALD SUES FOR RICH CALIFORNIA GOLD MINE

Man Well Known in Organ Mountain District Seeks to Secure Control of Famous Champion Mine.  
It will interest mining men of El Paso and New Mexico to learn that George E. Fitzgerald, the well known mining engineer, formerly operating the American mine at Hachita, N. M., the Hazel mine in El Paso county, the Bennett-Everson and Torpedo mines in the Organ mountain, N. M., organized last year the Champion Gold Mining company, of Chicago, to operate the mines of the Champion Mines

company, in Nevada City, California.

A special from Nevada City says: "The Champion Gold Mining company, of Chicago, has commenced suit against the Champion mines company for the Champion mines at Nevada City, also for \$50,000 damages. The plaintiff company was dispossessed on April 6, 1910, for failure to complete payments on the Champion properties on which it held a bond. Manager George E. Fitzgerald arrived in Nevada City a few days ago, and offered to complete the deferred payment, stating that his company now had ample capital and was prepared to take the property over on the original agreement. The owners declined to consider the offer and Fitzgerald had suit filed immediately in the federal court at San Francisco.

Since taking back the property the owners have opened eight feet of excellent grade ore on the 800 foot level and have kept 30 stamps in commission. The bonding company (Fitzgerald's) has the credit of discovering the vein, and it is evident that a determined struggle for the property will be waged. Eminent legal talent is being engaged by both companies. The Champion is the foremost gold property in Nevada City district, and has yielded millions of dollars.

## IRISH MAG. OF CALUMET, HAS NOT CLOSED DOWN.

When the word came early in the week to discontinue, temporarily, sinking in the Irish Mag shaft of the Calumet & Arizona mine in Bisbee, the rumor was started, and widely published, that this famous old shaft was to be discontinued. This rumor was promptly and emphatically denied by the C. & A. management, and the statement was made that this report was absolutely without foundation. There were few in Bisbee who credited this sensational story. The Irish Mag shaft, although the oldest mine of the C. & A. company, is yet full of great possibilities and to have had it shut down at this time, says the Douglas International, would have been a calamity to the entire district. The electric hoist continues to give the same splendid service and is hoisting even more ore than its builders claimed for it.

## PARRAL DISTRICT REPORTS THE LAST WEEK IN JULY.

Parral, Mex., Aug. 4.—The approximate production of the Parral, Mexico mining camp for the week ending July 30, was 18,849 tons, disposed of as follows:  
Shipped to smelters..... 3,870  
Locally treated..... 6,970  
Total..... 10,840  
The approximate production for June was 41,575 tons, disposed of as follows:  
Shipped to smelters..... 13,355  
Locally treated..... 28,220  
Total..... 41,575  
The steel workers on the new mill of the Palmilla Milling company will finish their work this week. Good progress is being made in installing the machinery and it is expected to have the plant ready for operation by October.

## LA REPUBLICA SHIPMENTS ONLY USUAL SIZE.

Secretary Charles Montfort, of La Republica Mining company states that owing to the difficulties recently overcome in unwatering the Republica mine and which have forced a reduction in the recent output, and no shipment out of the ordinary has been made in recent months; that the cyanide precipitates shipped by the company and received by the Chihuahua Investment company's bank in Chihuahua were only 20 cars of the value of 15,000 pesos, instead of 185,000 pesos as heretofore stated in various newspapers. He further says that the most recent production of the mine has been 25,000 pesos for the month of June, and is now processing finely at the mine since it has been unwatered.

## SUN SETS FIRE TO A ROSWELL HOME

Lea Lake Club Opens—Former Roswell Resident Dies—Personals.

Roswell, N. M., Aug. 4.—The new residence of Dr. C. McClellan, of Missouri, had a narrow escape from total destruction. The house was ignited by an oil lamp that was left standing against the house. The sun beat down on the lamp, causing the fire, which was extinguished by the department after the rear wall had been burned. The loss is fully covered by insurance.

Mrs. Rustler Lovelace and baby have gone to Magdalena, N. M., to join Mr. Lovelace in making their home. Mr. Lovelace is a ranger on the national forest out here. He was formerly a Roswell policeman.

The formal opening of the newly organized Lea Lake club occurred at the lakes, 14 miles southeast of the city. A big dinner was the feature of the day. J. W. Walters, who resided in Roswell and Lakewood for seven years, is dead at his home at Shawnee, Okla. He was a wealthy and prominent citizen and is survived by mother, wife and two daughters, one of the latter being Mrs. Claude Dean of Roswell. Burial will occur at Shawnee.

## CARRIZO WILL HAVE A NEW SCHOOL HOUSE

Many Other Building Improvements in Progress: Personal News of Carrizozo and Suburbs.  
Carrizozo, N. M., Aug. 4.—The contractors are building an addition to the school house. The lowest bidders were Beagle & Tennis of Polky, N. M., whose bid was \$5247. The building will be completed before the first of next year.  
A. H. Harvey is building an addition to his residence on Alamogordo avenue. Mr. and Mrs. H. S. Fairbanks have returned from a visit to El Paso.  
Night hostler Jerry Kelly is again at work at the round house after a 60 days' leave of absence.  
Mrs. S. E. Arnold has returned to El Paso after a short visit with Mrs. J. E. Gurney.  
Mr. and Mrs. P. W. Johnson and family, accompanied by T. E. Kelly and family, have gone for an outing on the Bonito.

## Crane Returns East.

Chicago, Ill., Aug. 4.—Senator Murray W. Crane, who is generally supposed to have come west to intimate to the secretary of the interior Ballinger that the secretary's resignation from the cabinet would be to the interest of the Republican party, has returned east. Just before leaving here he refused either to deny or confirm the report that he had asked secretary Ballinger for his resignation. It has developed that both the secretary and the senator were in the same hotel yesterday and it is generally believed, although it cannot be confirmed, that a conference was held between them.

## Dr. W. R. Weeks, chronic diseases.

Good in Hot Weather.

These are the days when ice cream tastes best and if it's Smith's ice cream it will taste much better.

## Wireless Telephone Officers Arrested.

New York, N. Y., Aug. 4.—Seven officers of the United Wireless telegraph company, most of whom had previously been arrested were indicted by a federal grand jury today on two counts, one charging conspiracy to defraud by use of the United States mails, the other to buy worthless stocks. Those indicted are president Christopher Columbus Wilson, vice president Samuel Bogar, secretary W. W. Tompkins, fiscal agent G. H. Parker, general manager C. C. Galbraith, treasurer W. A. Diboit and Francis X. Butler, counsel and director of the company.

## 6 Cantaloupes for 25 Cents

We are now getting the nicest valley cantaloupes of the season, fresh picked every morning and are selling them six for 25 cents.

Jackson's Sanitary Grocery, Phone 353.

## Head Chinese Smuggler Arrested.

San Francisco, Cal., Aug. 4.—By the arrest here of Jew Low Sing, a wealthy Chinese merchant, immigration inspector Richard A. Taylor claims to have disclosed a method whereby hundreds of Chinese have obtained fraudulent entry to this country. According to Taylor the clerk's office of the United States district court for northern district of California is badly involved by the disclosures. He stated that the arrest of Jew was brought about by the confession of a youthful deputy in the clerk's office.
